**2019 SEMESTRAL ASSESSMENT 2
MATHEMATICS
BOOKLET A
PRIMARY THREE**

Name: _____ () Class: Primary 3 ____

Date: 22 October 2019

Duration of Booklets A & B: 1 hour 45 minutes

INSTRUCTIONS TO CANDIDATES

1. This question paper consists of 6 printed pages, including the cover page.
2. Do not turn this page until you are told to do so.
3. Follow all instructions carefully.
4. Shade your answers on the Optical Answer Sheet (OAS) provided.

Section A (10 x 2 marks each)

For each of the following questions, four options are given. Choose the correct option and shade its oval (1, 2, 3 or 4) in the Optical Answer Sheet provided.

1. $8000 + \boxed{?} + 30 + 6 = 8936$

What is the missing number in the box?

(1) 9000

(2) 900

(3) 90

(4) 9

2. In 6759, the digit 5 is in the _____ place.

(1) ones

(2) tens

(3) hundreds

(4) thousands

3. Which pair of fractions are equivalent fractions?

(1) $\frac{1}{3}$ and $\frac{3}{6}$

(2) $\frac{1}{4}$ and $\frac{3}{8}$

(3) $\frac{1}{3}$ and $\frac{3}{9}$

(4) $\frac{1}{5}$ and $\frac{3}{10}$

4. The figure below shows 3 identical pears and a watermelon on a weighing scale. The mass of the pears is 360 g. What is the mass of the watermelon?

- (1) 360 g
 - (2) 590 g
 - (3) 950 g
 - (4) 1310 g
5. George bought a file and 2 rulers for \$4.75. A ruler cost \$0.40. How much did George pay for the file?
- (1) \$3.95
 - (2) \$4.15
 - (3) \$4.35
 - (4) \$5.15

6. A bookshop sold pencils in bundles of 6. After selling 8 bundles of pencils, there were 2 pencils left on the shelf. How many pencils were there in the bookshop at first?

- (1) 22
- (2) 46
- (3) 48
- (4) 50

7. The figure below is not drawn to scale.
Which of these angles is greater than the right angle?

- (1) angle a
- (2) angle b
- (3) angle c
- (4) angle d

8. The graph below shows the food expenditure of 5 boys in June.

Who are the 2 boys who spent a total of \$110 in June?

- (1) Max and Ali
 - (2) Ali and Joe
 - (3) Jay and Ian
 - (4) Joe and Jay
9. There are 4 eggs in a tray. Emily bought 9 trays of eggs. How many eggs did she buy?

- (1) 13
- (2) 32
- (3) 36
- (4) 49

10. Cathy has 432 stamps.
She has 24 more stamps than David.
How many stamps do the children have in all?

- (1) 888
- (2) 840
- (3) 456
- (4) 408

INSTRUCTIONS TO CANDIDATES

1. This question paper consists of 16 printed pages, including the cover page.
2. Do not turn this page until you are told to do so.
3. Follow all instructions carefully.
4. Answer all questions.

Section	Maximum Marks	Marks Obtained
A. Multiple-Choice Questions	20	
B. Short Answers	38	
C. Problem Sums	22	
Total Marks	80	

SECTION B - Short Answers (38 Marks)

Questions 11 to 20 carry 1 mark each. Questions 21 to 34 carry 2 marks each.

Show all workings and mathematical statements clearly in the space below each question. Write your answer in the space provided. Express your answers in the units stated and in its simplest form whenever possible.

11. Write 3840 in words.

Answer: _____

12. Arrange the following numbers from the smallest to the greatest.

1327	1237	1372	1273
------	------	------	------

Answer : _____ , _____ , _____ , _____
smallest

13. Fill in the missing number.

8040, 8190, 8340, 8490, _____, 8790, 8940

Answer : _____

14. Express 2 m 90 cm in centimetres.

Answer : _____ cm

15. The figures below are not drawn to scale.
Calculate the total amount of water in both beakers.

Answer : _____ ml

16. The time on the clock below is 20 minutes faster than the actual time.
What is the actual time?

Answer : _____ a.m.

17. Express 3 h 35 min in minutes.

Answer : _____ min

18. Find the area of the figure below.

Answer : _____ cm²

The bar graph below shows the number of plants sold by Mrs Lim at a nursery from Tuesday to Sunday. Study the graph carefully and answer questions 19 and 20.

19. On which day did Mrs Lim sell the most number of plants?

Answer : _____

20. How many more plants were sold on Saturday than Wednesday?

Answer : _____

21. The figure below shows a straight line EF and point G.
Draw a line perpendicular to EF and passes through point G.

22. Add $\frac{1}{2}$ and $\frac{3}{8}$.

Answer : _____

23. Form the smallest 4-digit even number using all the digits shown in the cards below.

6	2	0	9
---	---	---	---

Answer : _____

24. Find the difference between 9750 and 3972.

Answer : _____

25. What is the quotient when 739 is divided by 4?

Answer : _____

26. Patsy collected some stamps. Kelly collected 5 times as many stamps as Patsy.
The two girls collected 60 stamps altogether.
How many stamps did Patsy collect?

Answer : _____

27. The table below shows the number of visitors to the zoo on Monday and Tuesday.

Day	Monday	Tuesday	Total
Number of visitors	1752	?	2520

How many visitors were at the zoo on Tuesday?

Answer : _____

28. Baker Ted baked 1386 chocolate tarts.
He baked 675 fewer chocolate tarts than strawberry tarts.
How many strawberry tarts did he bake?

Answer : _____

29. Mr Lee had some apples. After selling 280 apples, he had 2895 apples left.
How many apples did he have at first?

Answer : _____

30. Arrange the following fractions in descending order

$$\frac{3}{10}, \frac{7}{10}, \frac{3}{5}$$

Answer : _____ , _____ , _____

greatest

31. What is the missing denominator in the box?

$$\frac{2}{3} = \frac{8}{\boxed{?}}$$

Answer : _____

32. Mavis bought a burger and a bowl of salad.
The bowl of salad cost \$3.50.
The burger cost \$2.00 more than the bowl of salad.
How much did she pay in all?

Answer : \$ _____

33. Mr Ahmad used 4 similar rectangular carpets to cover the floor of his living room. Find the area of Mr Ahmad's living room.

Answer : _____ m²

34. Johnny walked 2 dogs per day. He was paid \$4.50 for walking each dog. How many days had Johnny walked the dogs if he earned \$180?

Answer : _____

SECTION C - Problem Sums (22 Marks)

Questions 35 to 36 carry 3 marks each. Questions 37 to 40 carry 4 marks each. Show your working and mathematical statements clearly in the space below each question. All figures are not drawn to scale. Write your answer in the answer space provided. Express your answers in the units stated and in its simplest form whenever possible.

35. Alan, Bala and Chris had some cards
Alan had 192 more cards than Bala.
Bala had 75 fewer cards than Chris.
If Chris had 308 cards, how many cards did Alan have?

Answer : _____ [3]

36. The figure shown below is a plot of land Mr Gan used for farming. He wants to build a fence around it.

- (a) Find the length of the fencing that Mr Gan needs.
(b) If the cost of fencing his plot of land is \$2 per metre, how much must Mr Gan pay to fence up his plot of land?

Answer: (a) _____ [2]

(b) _____ [1]

37. Farmer Lim had a total of 615 green kiwi fruits and golden kiwi fruits.
He had 2 times as many green kiwi fruits as golden kiwi fruits.

(a) Fill in the number of kiwi fruits that Farmer Lim had in the table provided. (2m)

Golden Kiwi fruits	Green Kiwi fruits
i)	ii)

- (b) Farmer Lim wanted to pack his kiwi fruits into boxes of 9.
In each box, there must be 4 green kiwi fruits and 5 golden kiwi fruits.
He packed all his golden kiwi fruits and had some green kiwi fruits left.
How many green kiwi fruits were left unpacked?

Answer: (b) _____ [2]

38. A total of 1895 people attended a carnival. 768 of them were children while the rest were adults. There were same number of girls and boys at the carnival.
- (a) How many adults were there?
- (b) After some girls left the carnival, there were 3 times as many boys as girls remained at the carnival. How many girls continued to stay on at the carnival?

Answer: (a) _____ [2]

(b) _____ [2]

39. A seamstress sewed 2 dresses. She took 2 h 30 min to sew the first dress and finished sewing the first dress at 10.25 a.m.

- (a) What time did she start sewing the first dress?
- (b) She took 45 minutes more to sew the second dress than the first dress. How long did she take to sew the second dress?

Answer: (a) _____ [2]

(b) _____ [2]

40. There are 40 pillars along the building. The distance between the pillars are equal. The distance between the 1st and the 4th pillar is 24 m.
- (a) What is the distance between the first and the last pillar along the building?
- (b) There are 2 grey pillars in between 2 white pillars.
How many grey pillars are there along the building?

Answer: (a) _____ [2]

(b) _____ [2]
